Dear Colleague:

For half a century, U.S. government employees have generously supported thousands of national and local charities through the Combined Federal Campaign. As the government itself notes, federal donors have contributed more than \$7 billion since the program's start during the Kennedy Administration.

Our ongoing series, *A Million Donors Choose*, offers charities and donors alike an insight into the causes and organizations federal employees are electing to support. The government publishes summary data that reports the broad outlines of CFC results. With the help of local campaign administrators, we are able to dig more deeply into these results, showing how individual charities have fared.

This report covers three CFC cycles: 2010, 2011, and 2012. As we have for earlier years, we provide now a pledge number for every national and international organization that participated in the 2012 campaign.

For the first time, we are extrapolating pledge results to 100 percent. We do so to facilitate year-over-year comparisons, and the reader will find new tables which, for example, reveal those high-performing organizations whose pledges rose or dropped most rapidly from 2011 to 2012.

The CFC is, of course, a key source of philanthropic support for American charities. But it is something more: a window into the priorities of American donors. Each year, almost a million Americans – federal employees – give to thousands of charities. All of us in the philanthropic world can benefit from knowing better where these Americans are directing their support.

## Acknowledgements

A project of this scale involves the contributions of many. The people and offices noted below have helped in a variety of ways. This project would not have been possible without their assistance. They do not, of course, share blame for any error in analysis, which is entirely our own.

### Office of Personnel Management

This project benefited from the contribution of publicly available information from OPM staff in the Office of CFC Operations

### PCFOs Contributing to this Report

We wish to thank the administrators of the many local CFC zones who have kindly provided data for at least one of the years this project has covered. OPM labels these administrators “PCFOs” or “Principle Combined Fund Organizations.” (We shall try to keep our jargon to a minimum, but this is a common CFC term.) Some of the zones listed below have merged into neighboring larger zones. We thank them all, whether or not they still operate independently.

### About the CFC

#### How It Works

For half a century, the U.S. government has sponsored the Combined Federal Campaign – the world's largest workplace fundraising drive.

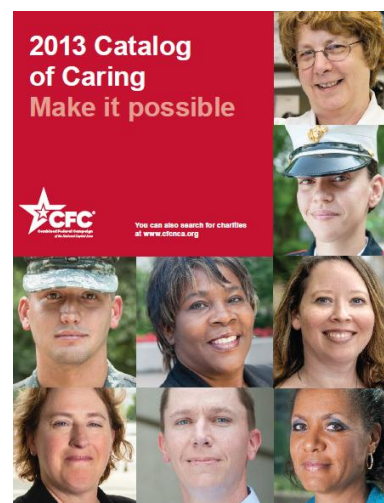

Each fall, beginning in September, federal employees – civilian, military and postal – are invited to support eligible national and local charities. Employees receive a directory that lists every eligible national and international organization, plus the many local groups that have qualified in a particular community. The size of the directory will vary, reflecting the number of local groups, but commonly the “book” runs to more than 100 pages.

Employees also receive a pledge card. They are advised that they can pick one or more groups from the list of qualified organizations and pledge to each one. About four million employees are invited to participate, and almost a million employees pledge over a quarter billion dollars each year.

In recent years, the list of eligible organizations has also been published on CFC websites. On these sites, employees are invited to search for charities of interest and, in many communities, to pledge online. While the use of web-based tools is growing rapidly, most federal donors still use the printed directory and pledge card.

Federal donors will sometimes give a single gift, but normally employees authorize their federal payroll office to withhold a particular amount from each paycheck.

On the next page is a typical page of the directory showing a federation and its member charities.

### Administration

The CFC is administered nationwide and overseas under the supervision of the U.S. Office of Personnel Management (OPM).

Government regulation assigns the day-to-day responsibility of running the CFC to community-based organizations called PCFOs – Principal Combined Fund Organizations. Over the years, the CFC has been consolidating PCFOs, but there are still over 150 such administrative zones. Here is OPM's map for the 2013 CFC. As you can see, some manage extensive portions of the country involving more than one state. Others manage more densely populated areas that cover a part of only one state. There is also a PCFO assigned to run the CFC overseas, reaching the many military employees who are working in other countries.

2013 PCFO zones—colors repeat, but do not indicate same PCFO

PCFOs screen the applications of local charities that wish to participate in their CFC zone. They also organize federal volunteers who represent the campaign in the local offices of government agencies, mount kick-off events to promote the campaign, print CFC directories for distribution to federal employees in their zones, distribute and collect pledge cards, tabulate pledge results, and help to transfer donated funds from employee paychecks to the benefiting organizations.

Each PCFO is itself a 501(c)(3) tax exempt organization. The PCFO must be audited annually and be governed by a board of directors.

Local federal volunteers oversee the PCFO in each zone of the CFC. These volunteers are organized as a local committee – the formal name is the Local Federal Coordinating Committee, or “LFCC.” The LFCC chooses the organization that will serve as PCFO, signs an agreement that authorizes the PCFO to operate within the CFC, approves an annual PCFO budget, and determines which local charity applicants meet CFC eligibility criteria.

### CFC Eligibility

Organizations qualify for the CFC by meeting either national/international requirements or local requirements. If they submit a successful application, national/international organizations are eligible for pledges in all of the local CFC administrative zones. Local organizations can receive pledges only in their home zone or in adjacent zones if they submit a successful application.

#### National/International Eligibility

To participate in the CFC at the national/international level, organizations must:

- Be 501(c)(3) tax exempt
- Provide services in at least 15 states or at least one foreign country
- Account for funds on an accrual basis in accordance with generally accepted accounting principles (GAAP)
- Commission an annual audit by an independent certified public accountant, using generally accepted auditing standards (GAAS)
- Submit to the IRS an annual informational *tax return* unless IRS rules do not require the organization to file such
- Be governed by an active and responsible board whose members have no material conflict of interest and a majority of whom serve without compensation.

#### Local Eligibility

To participate in the CFC at the local level, organizations must:

- Be 501(c)(3) tax exempt
- Be located and active in the CFC zone to which it is applying, or in an adjacent zone
- Account for funds on an accrual basis in accordance with generally accepted accounting principles (GAAP) unless the organization has revenue below \$100,000, in which case a simpler bookkeeping system is permitted
- Commission an annual audit by an independent certified public accountant, using generally accepted auditing standards (GAAS), unless the organization has revenue below \$100,000, in which case an audit is not required
- Submit to the IRS an annual informational *tax return* unless IRS rules do not require the organization to file such
- Be governed by an active and responsible board whose members have no material conflict of interest and a majority of whom serve without compensation.

The above criteria are summary in nature; charities interested in applying to the CFC should consult with OPM, their local PCFO, or their federation (see below) for actual admission requirements.

## Federations

Organizations wishing to be listed in the Charity Directory may apply directly to the CFC or through a government-approved “federation.”

To apply directly to the program, a national or international organization sends its application materials to the Office of Personnel Management in Washington DC. A local organization sends its material directly to the PCFO administering the zone the charity wishes to enter.

Alternatively, organizations may apply through a federation, of which there are many at both the national/international level and local level. Federations are 501(c)(3) tax-exempt organizations, each governed by a board of directors. They must be audited annually and satisfy most of the same eligibility criteria met by individual applicants to the CFC. To qualify as a federation, an otherwise eligible organization must represent a minimum of 15 qualified CFC charities.

Here are the national and international federations that participated in the 2012 CFC:

### International and National Federations

\* The federation name has been shortened for space.

† The CFC grants federation status to the American Red Cross and USO, though neither group has members.

Federations review charity applications to the CFC using the same criteria applied by OPM (national and international groups) or the PCFO/LFCC (local groups). Federations may apply additional criteria. Once the federations have completed their review, they submit their recommended organizations to OPM or the PCFO/LFCC which then conducts a second review, to ensure that CFC eligibility criteria have been met.

Organizations that apply through a federation are listed with that federation in the CFC Charity Directory. Organizations that apply directly to the program (sending their application directly to OPM or a PCFO/LFCC) are listed with similar organizations in an “Independent” section.

An organization that participates in the CFC through a federation will receive reports from its federation on how well it, the organization, did in the annual employee pledging. That organization’s CFC donations will also flow through its federation (see **How the Money Flows**, below).

An organization that participates as an Independent group will receive pledge reports and donations directly from PCFOs.

Organizations do not have to affiliate with a federation to enter the CFC, but most do – for three key reasons.

1. **Admissions support.** Federations assist groups in preparing their applications. While eligibility requirements are public, preparing a successful application may not be intuitive. Federations can help applicants understand what is required and offer advice on how to resolve any weaknesses in the submitted material.
2. **Increased visibility.** Many federations – especially national/international federations – are organized around a specific theme. Thematic federations make it easier for donors to find and support groups they are interested in. As noted, the CFC directory is quite lengthy, running to about 100 pages. Federations are usually listed at the front of these directories in the table of contents, so donors seeking to support a specific kind of work can easily find a focused list of relevant organizations.
3. **Fiscal services.** Federations substantially reduce the administrative burden of processing donations, especially for national/international organizations. In the CFC, the PCFOs report pledge results for each participating charity to that charity’s federation or, if there is no federation, directly to the individual charity. Since there are over 150 administrative zones in the CFC, national and independent charities can find themselves overwhelmed by many reports and subsequent payments. Federations provide a unified point of contact, simplifying the flow of paper.

Federations are free to offer services beyond the processing of CFC applications, reporting of CFC pledge results, and the transfer of CFC donations. Some offer marketing support. Some facilitate participation in state, municipal and/or private sector workplace giving campaigns. Some offer other services beyond workplace giving campaigns.

## Placement in the Directory

As can happen with any lengthy list, groups that are listed at the front of the CFC Charity Directory appear to perform better. The government seeks to even out this effect and employs two techniques to minimize this advantage.

First, the government rotates the three main sections of the Directory. Here is the order of the Directory for the three years included in this report. We highlight **National Organizations** so that the reader can see how placement shifts:

<b>2010</b>	<b>National Organizations – front of Directory</b> International Organizations – middle of the Directory Local Organizations – back of Directory
<b>2011</b>	Local Organizations – front of Directory <b>National Organizations – middle of the Directory</b> International – back of the Directory
<b>2012</b>	International Organizations – front of Directory Local Organizations – middle of Directory <b>National Organizations – back of the Directory</b>

Second, within each main section of the Directory, the government randomizes the sequence of the federations. Here is the order of the international federations for three years (note that it is not alphabetical). We highlight one federation to show its change of position over the years.

Order	2010	2011	2012
1	<b>Global Impact</b>	Aid for Africa	Jewish Aid Worldwide
2	Child Aid International	Intl Independent Orgs	Child Aid International
3	Do Unto Others	Build a Better World*	Intl Independent Orgs
4	Village by Village*	Jewish Aid Worldwide	<b>Global Impact</b>
5	Aid for Africa	Child Aid International	Do Unto Others
6	Intl Independent Orgs	<b>Global Impact</b>	Aid for Africa
7	Jewish Aid Worldwide	Do Unto Others	Build a Better World*

Name changes:

\* Village by Village using a DBA: "Build a Better World"

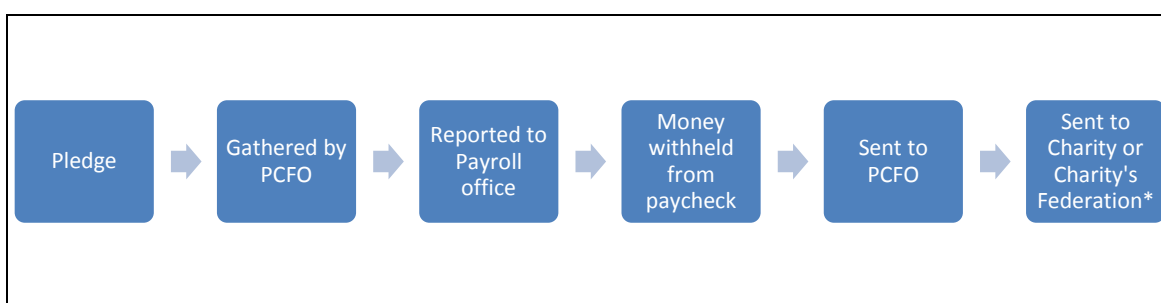

Within a federation's own list, the order of the members is customarily alphabetical.

### How the Money Flows

Donations to individual charities begin with employee pledges. As noted, employees are handed a CFC Charity Directory that lists all national, international and local charities that have been accepted into the CFC in a particular community. They also receive a pledge card.

Employees pick one or more groups they wish to support and pledge a particular amount to each group, money to be paid out of those employees' regular paychecks. If an employee wishes to donate \$100 to a local organization, for example, he or she designates that group on the pledge card, and the PCFO arranges for the money to be withheld from his or her pay throughout the following year, usually beginning in January.

**How the Money Flows**

\* If a charity participated in the CFC by affiliating with a federation, local administrators send the donations to that federation which then forwards the funds to the designated group. Otherwise, the PCFO sends the donated funds directly to the benefiting charity.

CFC administrative costs are paid out of donated funds. Each PCFO advances money to cover the expense of the Campaign in its administrative zone, and then recoups that money from initial donations. Federations also generally advance the money to cover their own operation and then withhold funds from CFC donations as these arrive. If these funds are withheld from donations to member charities, as is common practice, they constitute a federation fee (though this is not the only way federations collect fees). Charities should consult directly with federations to learn their fee policies.

## Project Design

### The 1417 System

PCFOs are required to report to OPM the results of each year's campaign in their individual CFC zone. These reports (Form 1417s) offer summary data concerning the number of employees who were invited to pledge, the number who did pledge, and the amounts pledged, broken down by federation. The government tallies this information and releases an aggregated 1417 report in the spring or early summer.

The 1417s do not show pledge results for individual charities, and the government does not request this information from PCFOs. Believing that much could be learned from the nationwide performance of individual charities in the CFC, we decided to request such reports. We are assured by OPM that this information is public.

OPM requests that PCFOs submit their 1417 reports by mid-March.

### Our Process

We begin to collect detailed data from PCFOs in February. By the late spring, we usually have pledge data from the majority of the PCFOs including most of those that administer larger CFC zones.

In addition to the PCFO data, we obtain from OPM standard information regarding each national and international charity. We add this standard information to our database which results in the following data fields for each charity:

- The name of the charity
- The unique five-digit code assigned by OPM to identify the charity
- The charity's federation if it is so affiliated
- The topical categories (e.g., arts, health, civil rights) that the charity selected from a government list to describe itself when it applied to the CFC (see Results by Topics, page 27)
- The brief 25-word statement that the charity submitted to the CFC to describe its work, a statement that is published in the CFC Charity Directory
- The administrative overhead percentage calculated from figures found on the charity's informational tax return, a figure that is published in the CFC Charity Directory
- The charity's website address
- The total pledged to that charity.

We also collect pledge results for local charities, but they will be considered in another report.

### The Impact of Extrapolation

With the kind assistance of local CFC administrators across the country, we have been able to gather a uniquely large sample of donor preferences. Indeed, this report covers three years and includes information on the performance of more than 2,500 charities. We believe no study has been able to achieve that breadth or detail.

That said, *A Million Donors Choose* remains a sample. To allow comparisons of pledge results over multiple years, we have projected pledge totals to 100 percent. Inevitably, extrapolating from a sample (however large) introduces error. Our experience suggests this is especially so for charities receiving smaller pledge totals.

To emphasize that the figures published here are extrapolations, we have rounded the reported totals to the nearest \$100.

## Project Results

### Overview

This report includes pledge results from three CFC cycles: 2010, 2011, and 2012. Over 130 PCFOs have contributed data covering one or more years:

CFC Year	# PCFOs Reporting	Share of Total Campaign
2010	126	75.0%
2011	103	70.7%
2012	107	71.6%

The pledge figures in this report have been extrapolated to 100 percent. In other words, the 2012 CFC pledge figures received from 107 PCFOs represented 71.6 percent of the national total. We have projected figures to 100 percent to allow year over year comparisons.

As context, here are figures released by the Office of Personnel Management for the last three campaigns.

	2010		2011		2012	
<b>Natl -Intl Charities</b>	\$178,541,392	63.4%	\$168,764,675	61.9%	\$161,990,284	62.7%
<b>Local Charities</b>	\$102,976,770	36.6%	\$103,914,602	38.1%	\$96,263,071	37.3%
<b>Total Pledges</b>	<b>\$281,518,162</b>	<b>100%</b>	<b>\$272,679,277</b>	<b>100%</b>	<b>\$258,253,355</b>	<b>100%</b>

In this report, we focus on the pledge results for the national and international charities that participated in each of these years.

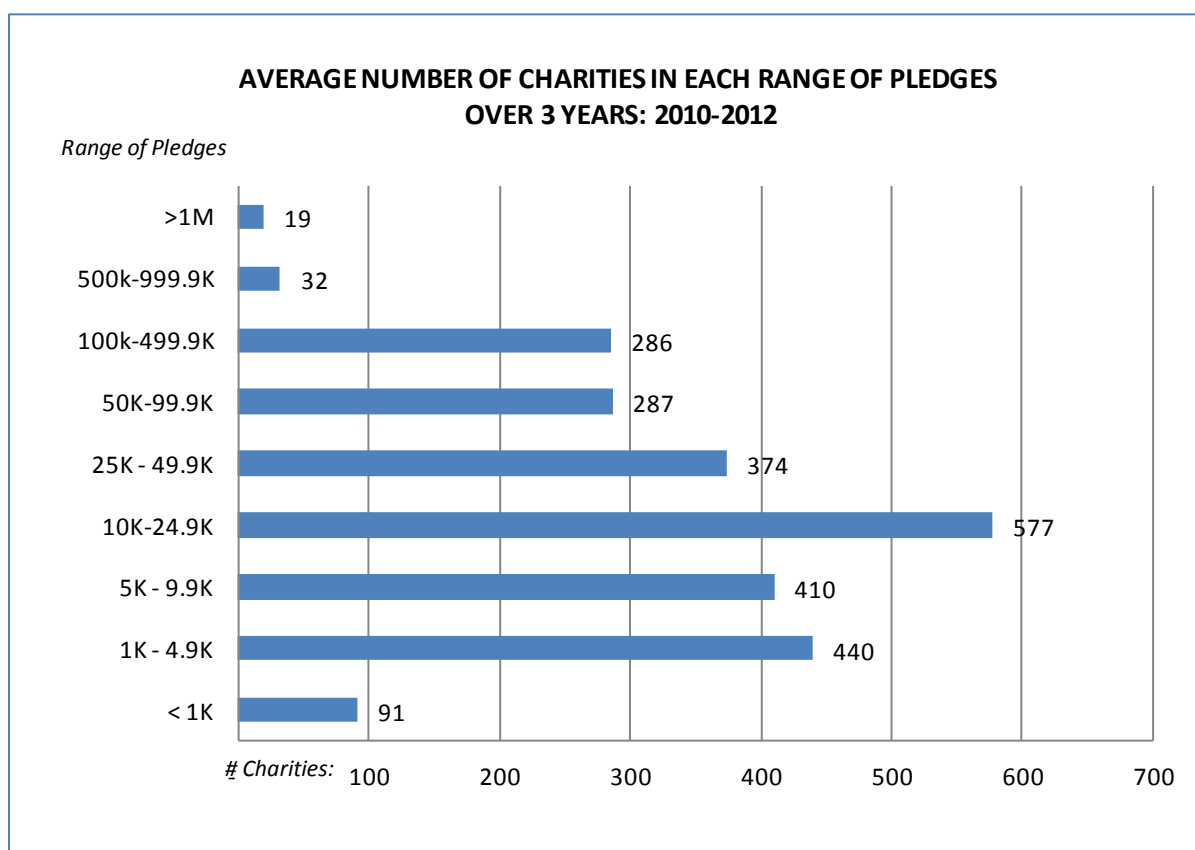

The sections below provide analysis of the 2010-12 data under the following headings:

- Charities by Range of their Pledge Results
- Top 100
- Results by Topic
- Impact of Charity Overhead

## Charities by Range of their Pledge Results

We start with a table that shows charity performance by pledge range. We have used data for 2010-12 to obtain these results.

As one can see, on average 19 national and international charities received pledges over \$1 million over the last three years (2010-2012). At the other end of the range, on average 91 organizations received less than \$1,000.

## Top 100

We present below results for the 100 national and international organizations receiving the highest pledges in the 2012 CFC. The pledge figures have been extrapolated and rounded to the nearest \$100.

The amounts actually received by the charities will be less, primarily reflecting three factors:

- The amount withheld by the PCFOs to cover their local administrative costs. Nationwide, this equals roughly 10 percent of the pledges.
- Pledges that are not fulfilled. Nationwide, this equals roughly 6 to 7 percent of total pledges.
- The amount withheld by a charity's federation. This will vary widely, reflecting the policy of individual federations. Charities participating independently will not be subject to this last cost.

In the 2012 CFC, the American Red Cross received the highest pledge total: a projected \$7,089,900. St. Jude Children's Research Hospital received a projected total of \$6,651,900. Wounded Warrior Project received a projected total of \$5,039,700. The last charity within the Top 100 was Diabetes Aid & Research Fund, which received a pledge total of \$260,500.

In this first table we note the rank of each of the Top 100 over the last three CFC years. American Red Cross had been in second place in the 2010 and 2011 campaigns. St. Jude Children's Research Hospital, now in second place, had been in first place. Wounded Warrior Project moved up in the list: The organization was in 12<sup>th</sup> position in the 2010 CFC.

The first table below lists the Top 100 in descending pledge order. Also included are each charity's CFC number and federation affiliation, if the group was a member of a federation in the 2012 CFC. We have shortened some of the charity and federation names to save space. For purposes of comparison, we list to the far right of the chart each charity's rank for 2011 and 2010.

Our next table displays the pledge totals for the Top 100, organized by federation. The reader will see that 88 of the top 100 charities were affiliated with a federation. The American Red Cross and USO participate in the CFC on their own, with the visibility of a federation but without members.

Community Health Charities had 16 members in the top 100, receiving over \$16 million in pledges. Federations, including Community Health Charities, have additional members, of course. Our table is limited to the Top 100. Figures have been rounded to reflect extrapolation.

Our third table reports the biggest gainers and losers in the 2012 CFC in comparison to the 2011 CFC. The table has been limited to organizations that saw their pledge totals rise or fall by at least \$100,000.

The figures have been rounded to the nearest \$100, reflecting the process of extrapolation.

## Results by Topic

When organizations apply to the CFC, they are asked to describe their services by selecting from 26 topical categories offered by the government. These categories are based on the National Taxonomy of Exempt Entities (NTEE) system, which is used by the IRS to classify nonprofit organizations. While it is not clear whether many donors search for charities by these categories, they do provide a useful tool to help understand the extent of donor interest in any particular cause.

### Taxonomy (NTEE) Codes

A	Arts, Culture, and Humanities
B	Educational Institutions & Related Activities
C	Environmental Quality, Protection & Beautification
D	Animal Related
E	Health - General and Rehabilitative
F	Mental Health, Crisis Intervention
G	Disease, Disorders, Medicinal Disciplines

V	Social Science Research Institutes, Services
W	Public, Social Benefit: Multipurpose, Other
X	Religion Related, Spiritual Development
Y	Mutual/Membership Benefit Orgs., Other
Z	Other

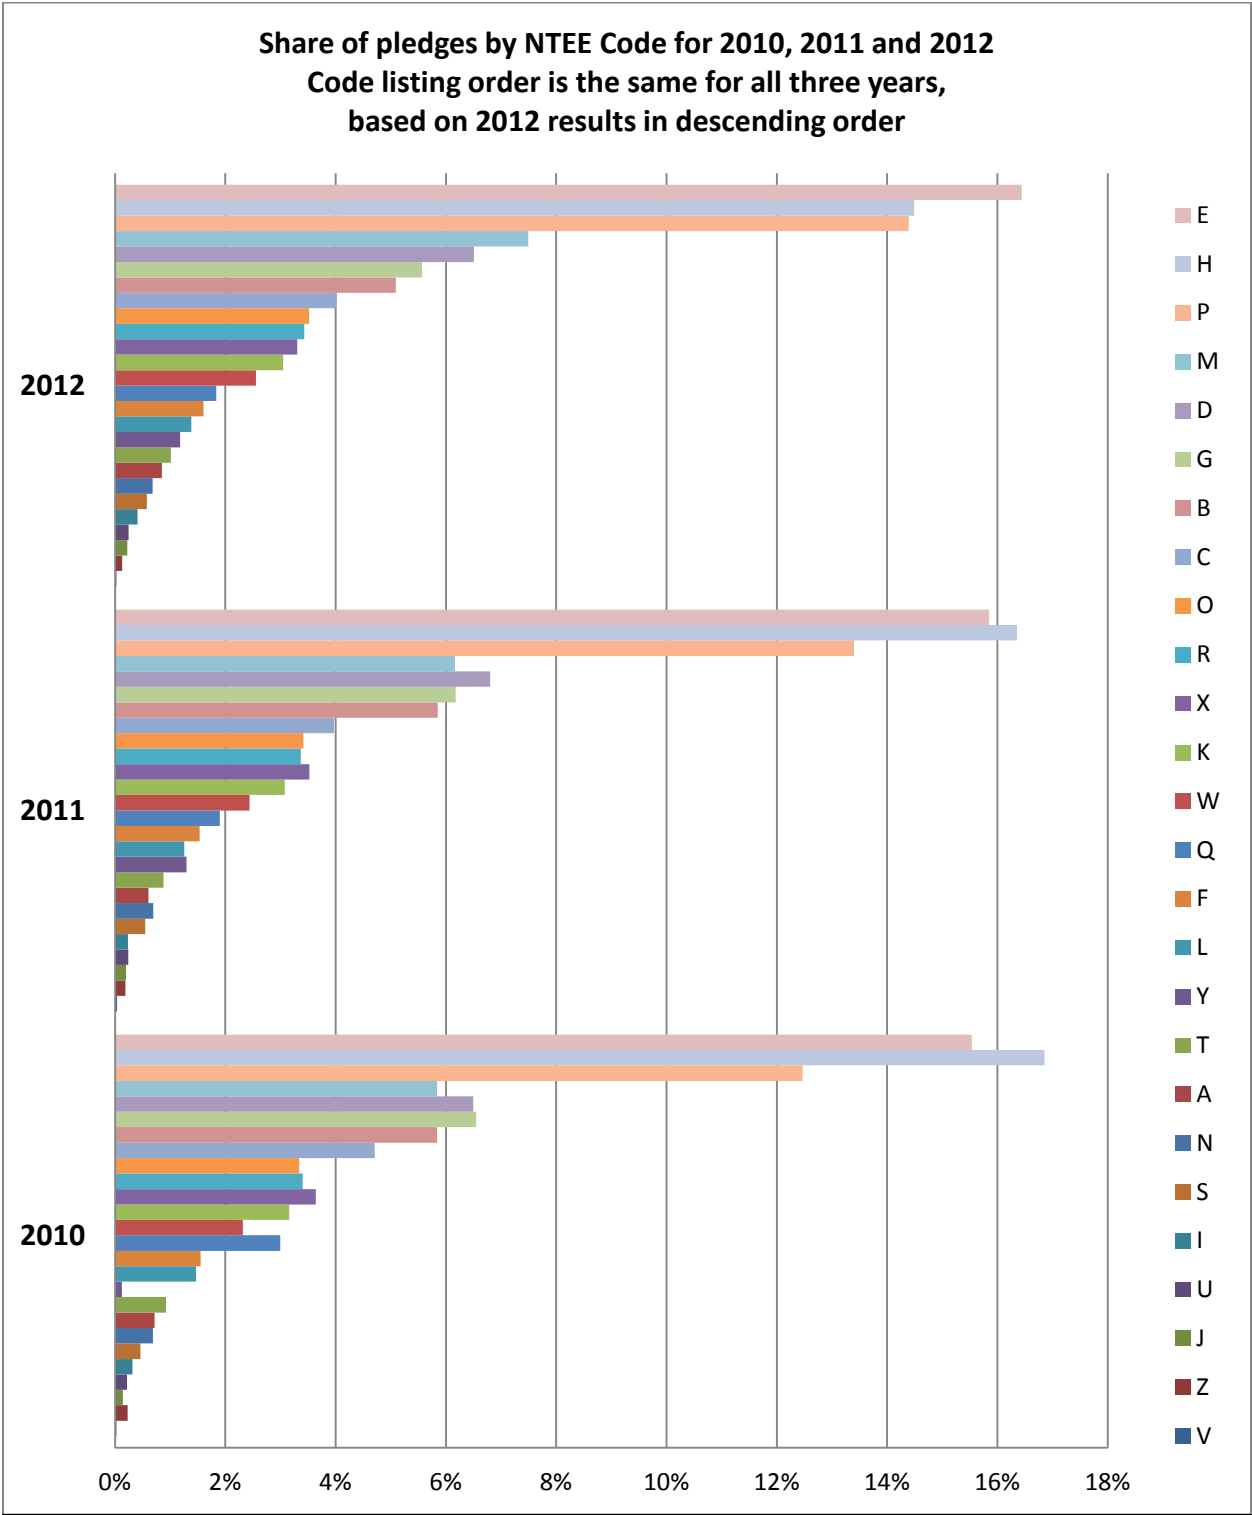

Note: The government invites charities to select up to three categories. A group might select category H (*Medical Research*) first, Category G (*Disease, Disorder, Medicinal Disciplines*) second, and Category B (*Educational Institutions & Related Activities*) third. In the CFC Charity Directory, all three categories would be included in the organization's listing: H, G, B. Many charities select only one or two categories. For our initial analysis, presented here, we have used only the first category.

The table below shows the 2012 results, by category. The numbers have been projected to 100 percent and are in descending order.

The next chart shows in graph form the consistency in donor choices over the years. It is worth noting that charities will occasionally change their selection of NTEE codes. If the charity is raising a substantial amount through the CFC, its change of codes will have an appreciable effect.

Our next table shows how the categories performed on average – i.e., dividing the amount pledged by the number of benefiting groups. The three right-hand columns compare the ranking for the last three years.

## Impact of Charity Overhead

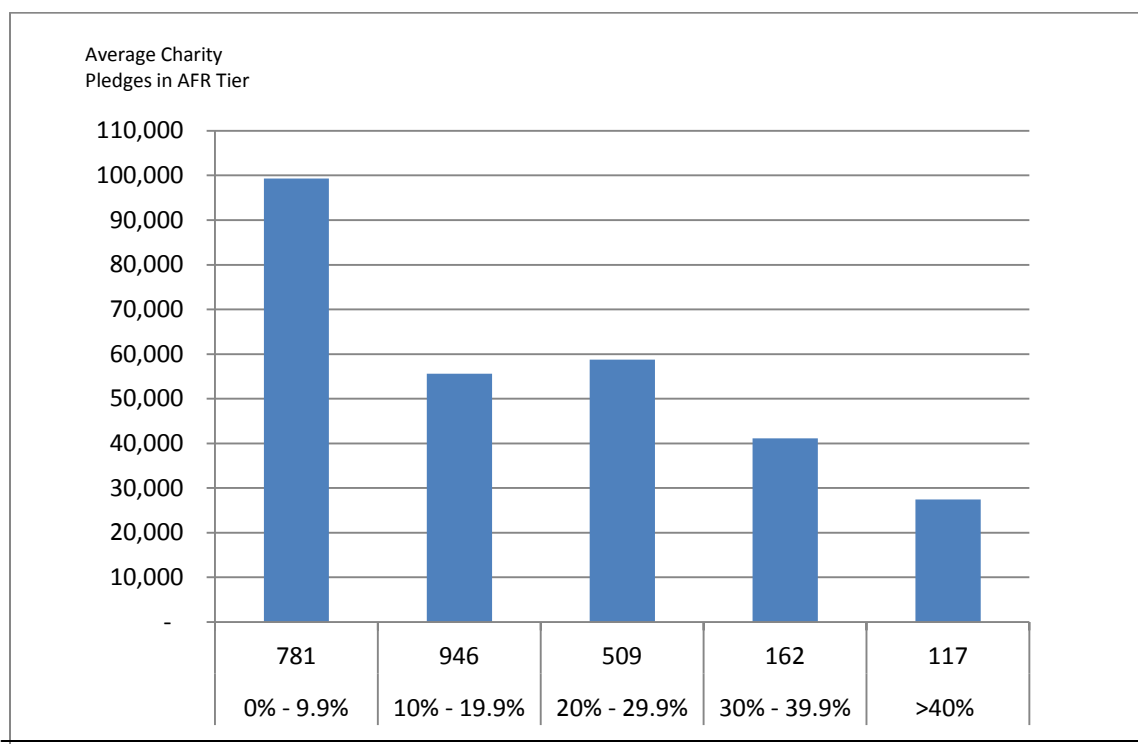

Each organization's listing in the CFC Charity Directory contains a number the government calls the Administrative and Fundraising Rate (AFR). It is intended to help donors understand the administrative overhead of participating charities. When organizations apply to the CFC, they are required to calculate this overhead using figures from the group's most recent IRS Form 990, according to the formula below.

$$(\text{Fundraising Expenses} + \text{Management Expenses}) \div \text{Revenue} = \text{CFC Administrative Overhead \%}$$

Note that the formula does not use total *expense* as the denominator. The government has long felt that dividing by the *revenue* would generate a more useful figure. The administrative overhead figure is printed in the CFC Charity Directory in the paragraph following the name of the organization.

The 2012 pledge results, like those for previous years, suggest that many donors take note of the administrative overhead figures. As the AFR rises, the average declines. The table below reflects results for three years, 2010, 2011 and 2012, averaged together, presenting the average number of charities and the average amount earned in each tier.

**Charity Performance Related to Administrative Overhead Percent**

### What's Next in Our Study

*A Million Donors Choose* is an ongoing study of donor preferences as revealed by their actual pledges. It is the largest study of its kind and benefits from the great number of US government employees who participate in the Combined Federal Campaign each year.

Our first report, published in 2011, focused on results from the 2009 CFC. The current report covers three years (2010, 2011, and 2012) and includes year-over-year comparisons.

We invite local Campaigns to send us their information for the years covered by this report if they have not already done so. Please contact us for precise instructions, but generally we seek information in a spreadsheet format. The greater the detail you can offer, the stronger the insights we can all develop.

## Appendix: Results for All Charities

The following table lists every national and international organization that participated in the 2012 CFC. Again, the figures reflect data from 107 administrative zones representing about 71.6 percent of the total amount raised that year. The figures have been projected to 100 percent and have been rounded to the nearest \$100.

The list is in **alphabetical** order. Names of some organizations have been shortened for reasons of space.

The table provides the name of each organization, its five digit CFC code, its federation affiliation if any, its extrapolated 2012 pledge total, and its rank in each of the last three years based on the results we have.

As we have discussed, extrapolation introduces error – especially for organizations receiving a low level of support. We have elected, therefore, to not project pledge totals for national and international organizations that, according to the data we have, received under \$1,000. In these instances, we have simply reported, < \$1000.
